PROFESSIONAL SUMMARY

Final year BSc Information Technology student with a proven track record of strong and consistent academic excellence. Demonstrates a solid understanding of OOP programming concepts in C# and Java, data structures, algorithms, and API development, supported by fair hands-on experience in building real world applications. Passionate about applying technology to solve practical problems while continuously developing technical expertise and professional skills.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2024 - 2026

North-West University

Majors: Computer Science and Information Systems

Current Overall Average: 81.96%

Relevant Coursework: Introduction to Computing and Programming (Distinction), Data Structures and Algorithms (Distinction), Object Oriented Programming (Distinction), Structured Programming (Distinction), User Interface Programming (Distinction), Apps and Advanced User Interface Programming (Distinction), Discrete Mathematics (Distinction)

BACHELOR OF SCIENCE IN PHYSICS AND ENGINEERING SUBJECTS

2019 - 2023

University of the Free State

Studies Incomplete - Refined and transitioned my career focus towards Information Technology

NATIONAL SENIOR CERTIFICATE

2018

Lekgulo Senior Secondary School

Mathematics and Science Stream, Free State Top 100 Matric Achiever

SKILLS

SOFT SKILLS

Critical and Quick Thinking | Analysis, Decision Making and Problem Solving | Ability to Learn and Work Under Pressure | Creativity | Teamwork and Collaboration | Communication and Presentation | Adaptability and Flexibility | Time Management | Professionalism | Planning and Organization

TECHNICAL SKILLS

Object-Oriented Programming: C# (Proficient), Java (Proficient) | Other Programming Languages: JavaScript (Intermediate), C++ (Intermediate), Python (Intermediate) | Generative AI Tools Proficiency | Data Structures & Algorithms | REST APIs & Postman Testing Knowledge | Backend Development Knowledge | Databases: SQLite, Oracle SQL, Microsoft SQL Server | Cloud & Deployment | Frameworks: .NET Web API, React | Tools: Visual Studio, VS Code | Version Control: Git, GitHub

ACHIEVEMENTS

INVESTEC TECH SCHOLARSHIP RECIPIENT

2026

Investec Bank

This scholarship is awarded to top performing tech talent, who are in their final year of studies, and includes industry mentorship and workplace readiness programs.

2025 GRADSTAR TOP 100 AWARDEE**2025**

GradStar Awards

These awards recognizes South Africa's top 100 employable students, based on leadership potential, work readiness, and overall employability skills.

FACULTY OF NATURAL AND AGRICULTURAL SCIENCES DEAN'S AWARD**2025**

North-West University

Awarded for excellent performance in Computer Science and Information Systems, to only top two performing students per school, per campus.

GOLDEN KEY INTERNATIONAL HONOUR SOCIETY MEMBER**2025**

Golden Key International Honour Society

Academic excellence recognition for being in the top 15% performing students in my field of study.

EXPERIENCE**STUDENT ASSISTANT****2025 - Current**

North-West University – School of Computer Science and Information Systems

Modules: Introduction to Computing and Programming, User Interface Programming

Responsibilities: Assisted in Python and C# modules by facilitating practicals and tutorials, invigilation, grading code submissions, and providing administrative support. Supported 200+ students per semester, reviewed 500+ codes assessing logic, correctness, and code quality, and providing structured feedback to improve student performance.

CERTIFICATES**FULLSTACK DEVELOPMENT CERTIFICATE****2025**

FNB Academy

Completed a hands-on full stack development course, gaining experience in frontend and backend development, databases, APIs, and real-world projects.

PROJECTS**PORTFOLIO WEBSITE**

Designed and developed a personal website to showcase my profile. Built using React, HTML, CSS, and JavaScript for a responsive and interactive user experience. Implemented features such as smooth navigation, stylish tabs, animations, transitions, and downloadable resources. Optimized layout and design for clarity, accessibility, and professional presentation.

TASK MANAGEMENT APPLICATION

Led a Systems Analysis and Design group project, developing a cross-platform task management application using .NET MAUI (C#) and Supabase PostgreSQL. My focus was on core backend logic, by implementing full CRUD functionality with real-time synchronization, user authentication, and focusing on reducing latency and optimizing system performance across multiple device types. Finalized a high-performance, cross-platform system, securing a 91% grade for technical execution.
