PROFESSIONAL SUMMARY

Final year BSc Information Technology student with a proven track record of consistent academic excellence. Demonstrates a solid understanding of core programming concepts in C# and Java and full-stack development, supported by solid hands-on experience in building real-world applications. Passionate about applying technology to solve practical problems while continuously developing technical expertise and professional skills.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

2024 - 2026

North-West University

Majors: Computer Science and Information Systems

Current Overall Average: 81.96%

Relevant Coursework: Introduction to Computing and Programming (Python), Data Structures and Algorithms, Object Oriented Programming (Java), Structured Programming (C++), User Interface Programming (C#), Apps & Advanced User Interface Programming (C#), Systems Analysis and Design, Data Analytics, Artificial Intelligence – *all completed with distinctions*

SKILLS

TECHNICAL

Languages: C# (Proficient), Java (Proficient), C++ (Proficient), Python (Proficient), JavaScript (Intermediate)

Backend: .NET Core Web API, REST APIs

Frontend: React, HTML, CSS, JavaScript

Databases: Oracle SQL, SQLite, Microsoft SQL Server, Supabase (PostgreSQL)

Tools: Git, GitHub, Visual Studio, VS Code

Deployment and Cloud Hosting: Platforms Used - Render, Vercel

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Development Life Cycle (SDLC), Database Design & CRUD Operations, Authentication & Authorization, Systems Analysis & Design

SOFT

Critical thinking, Problem solving, Attention to detail, Continuous learning agility, Ability to work under pressure, Strong work ethic, Creativity & innovation, Teamwork & collaboration, Communication & presentation, Adaptability & flexibility, Time management, Self-driven, resilient & motivated

ACHIEVEMENTS

INVESTEC TECH SCHOLARSHIP RECIPIENT

2026

Investec Bank

Awarded to top performing tech talent, who are in their final year of studies, and includes industry mentorship and workplace readiness programs.

2025 GRADSTAR TOP 100 AWARDEE**2025**

GradStar Awards

Recognition of South Africa's top 100 employable students, based on leadership potential, work readiness, and overall employability skills.

FACULTY OF NATURAL AND AGRICULTURAL SCIENCES DEAN'S AWARD**2025**

North-West University

Excellent performance in Computer Science and Information Systems.

GOLDEN KEY INTERNATIONAL HONOUR SOCIETY MEMBER**2025**

Golden Key International Honour Society

Academic excellence recognition for being in the top 15% performing students in my field of study.

EXPERIENCE**SUPPLEMENTAL INSTRUCTOR****2026 - Current**

North-West University

Responsibilities: Providing academic support to students in a C++ programming module through supplemental instruction sessions, assisting with understanding of programming concepts.

STUDENT ASSISTANT**2025 - Current**

North-West University – School of Computer Science and Information Systems

Responsibilities: Work collaboratively with lecturers for C# and Python modules to facilitate practical and tutorial sessions for 200+ students per semester. Review and grade 500+ code submissions, assessing logic, correctness, and quality while providing structured feedback and technical mentorship.

CERTIFICATES**FULLSTACK DEVELOPMENT CERTIFICATE****2025**

FNB Academy

Hands-on course, gaining experience in frontend and backend development, databases, APIs, and real-world projects integration.

PROJECTS**PORTFOLIO WEBSITE****2026**

Built a personal portfolio using React, HTML, CSS, and JavaScript. Includes responsive design, smooth navigation, animations, and downloadable content to showcase my profile professionally.

SECUREBANK**2026**

Full-stack fintech digital banking simulation web app with a customizable fraud detection engine, where users define their own risk rules scored against every transaction in real time. Built with React, .NET Core Web API, and Supabase. Features also include multi-account management, card controls, analytics, and live alerts. Fully deployed with Render (frontend) and Vercel (backend).

TASK MANAGEMENT APPLICATION**2025**

Led a group project to build a cross-platform task app using .NET MAUI and Supabase PostgreSQL. My focus was implementing CRUD operations, authentication, and real-time sync with a focus on performance and reliability. Achieved 91% grade for overall SDLC and technical execution.
